Notes:

1. Areas of Computer Science Knowledge: **DS. Discrete Structures; PF. Programming Fundamentals; AL. Algorithms and Complexity; AR. Architecture and Organization; OS. Operating Systems; NC. Net-Centric Computing; PL. Programming Languages; HC. Human-Computer Interaction; GV. Graphics and Visual Computing; IS. Intelligent Systems; IM. Information Management; SP. Social and Professional Issues; SE. Software Engineering; CN. Computational Science**
2. For Industrial placement one semester only is proposed – semester VI
3. The Project Work in semester VII may be accepted as base for Diploma thesis
4. Semester VIII comprises both several courses (up to 3) in shorten period (10 weeks), followed by Diploma thesis (10 weeks)
5. Specialization in Year IV is possible in case of sufficient number of students (minimum 5 students in one group); at this stage two specializations are proposed: business-oriented (BO) and science-oriented (SO). Additional further division inside business-oriented specialization can be analyzed.
6. The most appropriate semester for „mobility“ to partner University is semester VII
